# RMS Queen Mary

## Long Beach

- Commissioned by the Cunard Steamship Company and launched in 1934, the Queen Mary made its last transatlantic crossing in 1967, after a 31 year career as a luxury ocean liner and a World War II troop carrier.
- For the past 35 years, the Queen Mary has served as a floating museum, hotel, conference center and tourist attraction and has become an icon for the City of Long Beach.
- The Art Deco designed ship, which retains many of its major interior spaces and ornamentation, was listed on the National Register of Historic Places at the national level of significance in 1993.

## **Project Scope:**

- Repair, replacing as necessary, excessively corroded steel shell plating at the junction of the port side Promenade Deck.
- Develop an interim solution to the drainage of deck water, which is considered the long term cause of the corrosion.

**Grant Amount: \$300,000**
